THE LAST DECREE OF AVALON

On the final night of Avalon, the castle stood beneath a sky without stars. The guards along the eastern wall reported nothing unusual, yet seven bells rang from the abandoned tower just before midnight.

By morning, the king had vanished. His crown remained upon the throne, his sword rested beside the fireplace, and his final letter lay unfinished upon his desk.

[redacted]

The eastern tower was sealed immediately. The knights were ordered never to enter, and the royal archivist removed every record concerning the tower from the castle library.

[redacted]

According to an old legend, a door existed beneath the tower. It had no handle, no lock, and no key.

[redacted]

Years later, a forgotten page was discovered inside the king's private library. Most of the writing had faded, but one sentence remained perfectly clear.

The librarian claimed that the final page had been written by the king himself.

No one knows what happened beyond that door. The castle eventually became a ruin, [redacted]
